GRANDIS

STYLED TO STUN

Even the merest glance at the stunning Mitsubishi Grandis is sure to make you take a closer look. This beautifully styled car is far from being just another MPV. In fact, it's as sleek and impressive as a sporting car. By providing you with the best of both worlds, the Grandis sets a new standard for its class. On the one hand, it's a luxury sporting estate for six or seven persons while on the other hand it's an eye-catching yet thoroughly practical multi-purpose vehicle. But it's the unique styling of the Grandis that justifies its position as Mitsubishi Motors' top-of-the-range MPV. This brochure features a wide selection of genuine accessories to complement the comfort and design of this magnificent car.

HARMONY IN STYLE

Once seen, the Mitsubishi Grandis is not easily forgotten. The flowing contours of its bodywork matched with elegantly designed headlamps, radiator grille and taillights lend this car a unique, harmonious and perfectly balanced style. In fact, the car is so well designed that it's hard to improve. Yet Mitsubishi Motors has come up with a range of equally stylish accessories that fit the Grandis like a glove. They add a subtle accent to the Grandis' already impressive looks without disturbing what it essentially is: one of the most stylish MPVs ever built.

So all of our genuine accessories have one thing in common: their quality and fit are unsurpassed. A graceful rear spoiler, side protection moulding and chrome accents will give your Grandis that individual, distinctive touch that reflects your personality.

DESIGNED FOR SAFETY

When Mitsubishi Motors starts to design a car, optimum safety is always the first consideration. The Grandis is certainly no exception to this. So whenever you're behind the wheel, it's a comforting thought to know that you and your passengers are surrounded by a rigid body cage and safety equipment such as ABS and airbags for driver and passengers. For even more security, Mitsubishi Motors offers a range of child safety seats for example. Naturally, these meet the very highest standards, affording maximum protection for the biggest...and the smallest.
